Reference:

Domain creation ICANN + ORG.ZA

**Domain name creation, Domain registrations ICANN + COZA,
Domain setup, NLC Server transfers, Server hosting, Email hosting,
Website design work.**

1. Domain Registration Overview.

Getting a domain name involves registering the name you want with an international organisation called **ICANN** - *Internet Corporation for Assigned Names and Numbers* + the South African body **ORG.ZA** through an ICT domain name registrar. For example, if you choose a name like "mywebsite.co.za", you will have to go to a registrar and pay the registration for that name.

This will give you the exclusive rights to this name for a year, and you will have to renew it annually for (*usually*) the same amount per annum. (Registrar dependant fee).

2. Request Next Level Communication to proceed.

I/ We hereby request Next Level Communication to Create, Register or Transfer our domain name to the *Next Level Communication ICT Server* and to ensure that all registration and domain updates reflect at the **ICANN** body and **COZA** body.

Please indicate the appropriate choice with an **X**

3. Business name/ NGO name:

Domain TYPE created/ reg:co.za/.net/.com/.org/org.za/.info/.biz/etc.

Domain NAME to be created/ registered:

Next Level Communication strives to market businesses, presenting a digital and electronic presence across various communication platforms.

4. OFFICIAL REGISTRATION INFORMATION
